

AppCompatActivity

```
classDiagram
    class AppCompatActivity
    class MainActivity["org.buildmlearn.matchtemplate.activities.MainActivity"]
    MainActivity --|> AppCompatActivity
```

The diagram illustrates a class inheritance relationship. At the top, a white rectangular box with a thin black border contains the text 'AppCompatActivity'. Below it, a larger gray rectangular box with a thick black border contains the text 'org.buildmlearn.matchtemplate.activities.MainActivity'. A solid blue arrow points vertically from the top center of the gray box to the bottom center of the white box, indicating that MainActivity is a subclass of AppCompatActivity.

org.buildmlearn.matchtemplate.activities.  
MainActivity
